PIXEL BRICK

This multi-purpose spotlight is not much larger than an AX3 but features all our latest technological achievements such as Titan LED Engine, CRMX & wired DMX via PowerBox and direct App control without ART7. Each of its 4 sides includes an airline track and a nifty rail to slide-in mounting accessories which allows a quick connection of several PixelBricks to form clusters and geometrical shapes.

Max 20h **Wireless DMX** **IP65** **App**
